

# **CCM Albania Communication Strategy**

**May 2015**

## Background

Country Coordinating Mechanism of Albania (CCMA) is a central mechanism for implementing Global Fund supported HIV and TB programs in Albania. CCMA creates a multi-stakeholder platform for country ownership and participatory decision making on HIV and TB related policy and programmatic issues. As of May 2015, CCMA includes representatives from the three sectors: governmental, civil society and development partners (multilateral or bilateral agencies). Representatives of key affected populations and people living with the disease are part of the CCMA.

CCMA's operations are regulated according to the CCMA governance Manual. The core functions of the CCMA include the following (CCMA Governance Manual February 2015, Article 2):

- **To coordinate the development and submission of national proposals** to the Global Fund.
- **To develop and implement criteria** for the nomination of Principle Recipients (PR) and Sub- Recipients (SR) for each proposal, which will be involved in the implementation of the project, should the proposal be approved.
- **To oversee Global Fund grants in Albania.** Oversee implementation of activities financed by Global Fund grants, ensuring that the performance of PRs and SRs is monitored and evaluated. Review progress reports that have been prepared and submitted to the Global Fund by PRs.
- **To facilitate PRs in reprogramming of grants.** Consider and, where appropriate, approve major changes in grant implementation plans that have been proposed by the PR. When necessary, submit requests to the Global Fund for reprogramming of approved grants.
- **To request Global Fund for continued funding.** Submit to the Global Fund request for continued funding for each approved grant as required.

The core functions outlined above should be accomplished through open, transparent and

participatory processes. In order to achieve adequate cooperation between all constituencies, with internal and external partners and the general public CCMA needs to be equipped with effective communication mechanisms. Good communication is a critical precondition for effective functioning of the CCMA. Moreover, the way of information flow to and from CCMA can greatly influence the country dialogue aimed at strategic planning and important investment decisions. Therefore, all communication processes should be well planned, coordinated, adequately supported and monitored for maximum potential benefits for all stakeholders and most importantly populations affected with the diseases.

## **Rationale**

The CCMAA communication strategy is developed to improve planning, coordination, implementation and monitoring on all CCMA's activities. The plan defined priority objectives and activities to address CCMA's communication needs. The communication plan intends to contribute to the effective and transparent functioning of the CCMA.

This Communication strategy will improve information flow internally among the CCMA (the Secretariat, CCMA oversight committee, CCMA Executive Committee and CCMA ad hoc working groups), and externally between the CCMA and CCMA members' constituencies, the Global Fund, the Local Fund Agent, stakeholders and the wider public. The strategy serves as a guide to enable the CCMA and its Secretariat to communicate more effectively as it develops and submits grant proposals to the Global Fund, oversees progress of grant implementation and reports to all grant stakeholders and the wider community of Albania on results achieved through Global Fund grants.

This strategy is developed and refers to other important governance and operational documents approved by CCMA, being the CCMA Secretariat, Governance and Oversight Manuals. As communication is a cross cutting dimension, it constitutes a key element to all the Manuals. This strategy does not intend to substitute any provision set by the manuals, but to ensure inter linkages among them and other activities of CCMA.

## Goal and Objectives

The goal of this strategy is to strengthen CCMA's governance by effective information exchange within its constituencies, external partners and the wider public. This strategy calls CCMA to establish an effective two-way communication for transferring CCMA's decisions and recommendations to the public in a simple and timely manner and ensure that all stakeholders' views are heard. Non-CCMA members' viewpoints need to be solicited and considered in providing grant oversight.

This goal will be achieved through a number of objectives focused on (1) CCMA's external communications and (2) CCMA's internal communications

*(1) Objective 1: To ensure effective communication with and between CCMA's external partners*

- 1.1. Ensure regular transfer of clear and accurate information to stakeholders and the wider public on Global Fund funding opportunities and key results achieved through the implementation of Global Fund grants in Albania
- 1.2. Facilitate communication with CCMA constituencies.
- 1.3. Ensure communication between the Global Fund, the GF Portfolio Manager and the CCMA in line with the grant agreement and other relevant regulations.
- 1.4. Provide information on the roles and relationships between the CCMA, the PRs and the LFA to interested parties so as to enhance understanding of these interrelated roles and relationships and make them more effective.

*(2) Objective 2: To ensure effective internal communication within the CCMA members and subcommittees.*

- 2.1. Facilitate communication and understanding among members on the core functions of the CCMA, including oversight.
- 2.2. Introduce induction module for new CCMA members on their roles and responsibilities, expectations of member participation, and CCMA policies (e.g. conflict-of-interest policy), procedures, and tools (e.g. grant oversight dashboard).
- 2.3. Increase and maintain knowledge among CCMA members of key policies and new information from the Global Fund.

## Target Audiences and Definitions

The key target audiences for this strategy are listed and defined below:

- A.** *The Global Fund:* a public-private partnership and international financing institution dedicated to attracting and disbursing resources to prevent and treat HIV and AIDS, TB and malaria.
  
- B.** *CCMA members:* representatives of government, multilateral and bilateral development partners, nongovernmental and faith-based organizations, affected communities, academic institutions and the private sector officially elected or selected to serve as regular members, part of an Albania governance body overseeing grants from the Global Fund.
  
- C.** *Members' constituencies:* organizations, and in some cases groups of individuals, which are represented by one or more members of the CCMA. Constituencies can be based on geographic regions, sectors or on a like-minded approach to issues.
  
- D.** *CCMA Secretariat:* the staff of the Secretariat.
  
- E.** *Principle recipient (PR):* entity legally responsible for implementation and management of awarded grants, as set out in a grant agreement between the entity and the Global Fund. PR is required to ensure regular communication with the CCMA as per the Articles of the Grant Agreement. There are number of articles in the Global Fund Grant Agreement, which mandates PR to communicate with the CCMA. (1) As per Article 7 of the Grant Agreement, PRs are legally obligated to cooperate with CCMA and to be available to meet with them regularly to discuss plans, share information and communicate on program- related matters. PR is also legally obligated to provide program-related reports and information to the CCMA upon request. (2) As per Article 15, PR is legally obligated to provide CCMA with a copy of all reports submitted to the Global Fund. (3) As per

Article 25 of the Grant Agreement, PR is legally obligated to copy CCMAAs on all notices, requests, documents, reports or other communication exchanges with the Global Fund Secretariat. Similarly, as per Articles 47 and 48 of the Global Fund's Guidelines and Requirements for Country Coordinating Mechanisms, CCMA members are called to share information with and report back to their constituents in an open and timely manner, and should respond to requests for additional information.

- F. *Sub-recipients (SRs)*:** organizations that receive Global Fund financing through the *PRs* in order to carry out activities that are part of the grant agreements.
  
- G. *Local Fund Agent*:** local, independent agency contracted by the Global Fund to provide oversight of the PR on behalf of the Global Fund. Before the Global Fund signs a grant agreement, the LFA assesses the capacity of the nominated PR in the areas of financial management, programmatic management, monitoring and evaluation, and procurement and supply management. On an ongoing basis, it verifies the PR's periodic progress updates and disbursement requests, and undertakes other ad hoc monitoring activities.
  
- H. *Grant stakeholders*:** those affected by the grant who can influence it but who are not directly involved with implementing the work.
  
- I. *Wider public*:** The broader population and communities of Albania.
